

PROSPECTUS SUPPLEMENT
(To Prospectus dated November 12, 2019)

BIONIK LABORATORIES CORP.

156,250 Shares of Common Stock

This prospectus supplement (the “Prospectus Supplement”) supplements our prospectus dated November 12, 2019 (the “Prospectus”), relating to the offer and sale from time to time of up to 156,250 shares of our common stock issuable upon the exchange, on a one-for-one basis, of Exchangeable Shares of our indirect subsidiary Bionik Laboratories, Inc. by the persons described in the Prospectus, whom we call “selling stockholders”.

We registered these shares as required by the terms of registration rights agreements between the selling stockholders and us. Such registration does not mean that the selling stockholders will actually offer or sell any of these shares. The selling stockholders may offer the shares of our common stock at prevailing market prices at the time of sale, at prices related to the prevailing market price, at varying prices determined at the time of sale or at negotiated prices. See “Plan of Distribution” beginning on page 46 of the Prospectus for additional information.

We are not offering any shares of common stock for sale under the Prospectus or this Prospectus Supplement and we will not receive any proceeds from sales of shares of our common stock by the selling stockholders.

Recent Developments

This Prospectus Supplement is being filed to update and supplement the information in the Prospectus with the information contained in our Quarterly Report on Form 10-Q for the fiscal quarter ended September 30, 2019, filed with the Securities and Exchange Commission on November 14, 2019 (the “10-Q”). Accordingly, we have attached the 10-Q to this Prospectus Supplement. Any statement contained in the Prospectus shall be deemed to be modified or superseded to the extent that information in this Prospectus Supplement modifies or supersedes such statement. Any statement that is modified or superseded shall not be deemed to constitute a part of the Prospectus except as modified or superseded by this Prospectus Supplement.

This Prospectus Supplement should be read in conjunction with, and may not be delivered or utilized without, the Prospectus.

Investing in our common stock involves significant risks. You should read the section entitled “Risk Factors” beginning on page 5 of the Prospectus for a discussion of certain risk factors that you should consider before investing in our common stock.

Neither the Securities and Exchange Commission nor any state securities commission or other regulatory body has approved or disapproved of these securities or determined if the Prospectus or this Prospectus Supplement is truthful or complete. Any representation to the contrary is a criminal offense.

This Prospectus Supplement does not constitute an offer to sell or the solicitation of an offer to buy any securities other than the common stock offered by the selling stockholders.

The date of this Prospectus Supplement is November 18, 2019

BIONIK LABORATORIES CORP.
NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS
For the six month periods ended September 30, 2019 and 2018
(Amounts expressed in U.S. Dollars) (unaudited)

1. NATURE OF OPERATIONS AND GOING CONCERN

The Company and its Operations

Bionik Laboratories Corp. (the “Company” or “Bionik”) was incorporated on January 8, 2010 in the State of Colorado as Strategic Dental Management Corp. On July 16, 2013, the Company changed its name to Drywave Technologies Inc. (“Drywave”) and its state of incorporation from Colorado to Delaware. Effective February 13, 2015, the Company changed its name to Bionik Laboratories Corp. and reduced the authorized number of shares of common stock from 200,000,000 to 150,000,000. Concurrently, the Company implemented a 1-for-0.831105 reverse stock split of the common stock, which had previously been approved on September 24, 2014. On October 29, 2018, the Company implemented at 1 for 150 reverse stock-split of the common and exchangeable shares.

On February 26, 2015, the Company entered into a Share Exchange Agreement and related transactions whereby it acquired Bionik Laboratories Inc., a Canadian Corporation (“Bionik Canada”) and Bionik Canada issued 333,334 Exchangeable Shares, representing a 3.14 exchange ratio, for 100% of the then outstanding common shares of Bionik Canada (the “Merger”). The Exchangeable Shares are exchangeable at the option of the holder, each into one share of the common stock of the Company. In addition, the Company issued one Special Preferred Voting Share (the “Special Preferred Share”) (Note 10).

On April 21, 2016, the Company acquired all of the outstanding shares and, accordingly, all assets and liabilities of Interactive Motion Technologies, Inc. (IMT), a Boston, Massachusetts-based global pioneer and leader in providing effective robotic products for neurorehabilitation, pursuant to an Agreement and Plan of Merger (the “Merger Agreement”) dated March 1, 2016, with IMT, Hermano Igo Krebs, and Bionik Mergerco Inc., a Massachusetts corporation and the Company’s wholly owned subsidiary (Bionik Mergerco). The merger agreement provided for the merger of Bionik Mergerco with and into IMT, with IMT surviving the merger as the Company’s wholly owned subsidiary. In return for acquiring IMT, IMT shareholders received an aggregate of 157,667 shares of the Company’s common stock (Note 4).

On November 6, 2017, the Company approved the authorization of a common share capital share increase to 250,000,000 from 150,000,000 and on June 12, 2018, the Company approved the authorization of a common share increase to 500,000,000 from 250,000,000.

References to the Company refer to the Company and its wholly owned subsidiaries, Bionik Inc., Bionik Acquisition Inc. and Bionik Canada.

The Company is a global pioneering robotics company focused on providing rehabilitation solutions to individuals with neurological disorders, specializing in designing, developing and commercializing cost-effective physical rehabilitation technologies, prosthetics, and assisted robotic products. The Company strives to innovate and build devices that can rehabilitate and improve an individual’s health, comfort, accessibility and quality of life through the use of advanced algorithms and sensing technologies that anticipate a user’s every move.

These unaudited condensed consolidated interim financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“US GAAP”), which contemplates continuation of the Company as a going concern, which assumes the realization of assets and the satisfaction of liabilities and commitments in the normal course of business.

The Company’s principal offices are located at 483 Bay Street, N105, Toronto, Ontario, Canada M5G 2C9 and its U.S. address is 80 Coolidge Hill Road, Watertown, MA 02472.

Going Concern

As at September 30, 2019, the Company had a working capital of \$5,144,499 (March 31, 2019 - \$479,408) and an accumulated deficit of \$(51,860,701) (March 31, 2019 - \$(46,357,373)) and the Company incurred comprehensive loss of \$(5,503,328) for the six month period ended September 30, 2019 (September 30, 2018 - \$(4,743,803)).

There is no certainty that the Company will be successful in generating sufficient cash flow from operations or achieving and maintaining profitable operations in the future to enable it to meet its obligations as they come due and consequently continue as a going concern.

The Company will require additional financing to fund its operations and it is currently working on securing this funding through corporate collaborations, public or private equity offerings or debt financings. Sales of additional equity securities by the Company would result in the dilution of the interests of existing stockholders. There can be no assurance that financing will be available when required. In the event that the necessary additional financing is not obtained, the Company would reduce its discretionary overhead costs substantially or otherwise curtail operations. The Company expects to raise additional funds to meet the Company’s anticipated cash requirements for the next 12 months; however, these conditions raise substantial doubt about the Company’s ability to continue as a going concern. The accompanying condensed consolidated financial statements do not include any adjustments to reflect the possible future effects on recoverability and reclassification of assets or the amounts and classification of liabilities that may result from the outcome of this uncertainty.

All adjustments, consisting only of normal recurring items, considered necessary for fair presentation have been included in these condensed consolidated financial statements.

BIONIK LABORATORIES CORP.
NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS
For the six month periods ended September 30, 2019 and 2018
(Amounts expressed in U.S. Dollars) (unaudited)

2. BASIS OF PRESENTATION

During the 2019 fiscal year, holders of the common stock and exchangeable shares of the Company approved, through a majority shareholder vote, an amendment to the Company's Amended and Restated Certificate of Incorporation authorizing the Board of Directors to effect a reverse stock split of Bionik's common stock and exchangeable shares at a ratio up to one-to-one hundred and fifty.

On October 29, 2018, the Company effected a reverse stock split and thereafter Bionik's common stock began trading on the OTCQB market on a one-for-one hundred and fifty (1:150) split-adjusted basis. All owners of record on October 29, 2018 received one issued and outstanding share of Bionik common stock or exchangeable share in exchange for one hundred and fifty issued and outstanding shares of Bionik common stock or Bionik exchangeable stock. No fractional shares were issued in connection with the reverse stock split. All fractional shares created by the one-for-one hundred and fifty reverse split were rounded up to the next whole share. The reverse stock split had no impact on the par value per share of Bionik common stock, which remains at \$0.001. All current and prior period amounts related to shares, share prices and earnings per share, presented in the Company's consolidated financial statements and the accompanying Notes contained in this Quarterly Report on Form 10-Q have been restated to give retrospective presentation for the reverse stock split.

3. SIGNIFICANT ACCOUNTING POLICIES

Unaudited Condensed Consolidated Interim Financial Statements

These unaudited condensed consolidated interim financial statements have been prepared on the same basis as the annual audited financial statements of the Company and should be read in conjunction with those annual audited financial statements filed on Form 10-K for the year ended March 31, 2019. The interim disclosures generally do not repeat those in the annual statements. In the opinion of management, these unaudited condensed consolidated interim financial statements reflect all adjustments necessary to present fairly the Company's financial position, results of operations and cash flows for the periods shown. The results of operations for such periods are not necessarily indicative of the results expected for a full year or for any future period.

The changes in accounting policies in the Company's unaudited condensed consolidated interim financial statements from the March 31, 2019 audited financial statements are described below.

Newly Adopted and Recently Issued Accounting Pronouncements

Newly Adopted

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-09, Revenue from Contracts with Customers (Topic 606). The updated standard will replace most existing revenue recognition guidance in U.S. GAAP. The new standard introduces a five-step process to be followed in determining the amount and timing of revenue recognition. It also provides guidance on accounting for costs incurred to obtain or fulfill contracts with customers and establishes disclosure requirements which are more extensive than those required under existing U.S. GAAP. The FASB has issued numerous amendments to ASU 2014-09 from August 2015 through January 2018, which provide supplemental and clarifying guidance, as well as amend the effective date of the new standard. ASU 2014-09, as amended, is effective for the Company in the interim period ended September 30, 2019. The standard permits the use of either the retrospective or modified retrospective (cumulative effect) transition method. The Company adopted the new standard using the modified retrospective transition method. The Company has adopted ASU-2014-1 for the fiscal year ended March 31, 2019 and it did not have a material effect on the consolidated balance sheet and the consolidated results of operations.

In November 2015, the FASB issued ASU No. 2015-17, "Balance Sheet Classification of Deferred Taxes," which require that deferred tax liabilities and assets be classified on our Consolidated Balance Sheets as noncurrent based on an analysis of each taxpaying component within a jurisdiction. ASU No. 2015-17 is effective for the fiscal year commencing after December 15, 2017. The Company has adopted ASU-2015-17 for the fiscal year ended March 31, 2019 and it did not have a material effect on the consolidated balance sheet or the consolidated results of operations.

In January 2016, the FASB issued ASU No. 2016-01 Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities. The updates make several modifications to Subtopic 825-10, including the elimination of the available-for-sale classification of equity investments, and it requires equity investments with readily determinable fair values to be measured at fair value with changes in fair value recognized in operations. The update is effective for fiscal years beginning after December 2017. The Company has adopted ASU 2016-01 for the year ended March 31, 2019 and it did not have a material effect on the consolidated balance sheet and the consolidated results of operations.

In February 2016, the FASB issued ASU 2016-02, Leases. This update requires organizations that lease assets to recognize on the balance sheet the assets and liabilities for the rights and obligations created by those leases. The new guidance will also require additional disclosure about the amount, timing and uncertainty of cash flows arising from leases. The provisions of this update are effective for annual and interim periods beginning after December 15, 2018. The Company has adopted ASU 2016-02 and it did not have a material effect on the consolidated balance sheet and consolidated statement of operations.

In August 2016, the FASB issued ASU 2016-15, "Statement of Cash Flows: Classification of Certain Cash Receipts and Cash Payments". This ASU provides eight targeted changes to how cash receipts and cash payments are presented and classified in the statement of cash flows. ASU 2016-15 is effective for the fiscal year commencing after December 15, 2017. The Company has adopted ASU 2016-15 for the fiscal year ended March 31, 2019 and it did not have material effect on the consolidated balance sheet or on the consolidated statement of cash flows.

3. SIGNIFICANT ACCOUNTING POLICIES – Continued

In May 2017, the FASB issued ASU No. 2017-09, Compensation - Stock Compensation (Topic 718): Scope of Modification Accounting (ASU 2017-09). The FASB issued the update to provide clarity and reduce the cost and complexity when applying the guidance in Topic 718. The amendments in this update provide guidance about which changes to the terms or conditions of a share-based payment award require an entity to apply modification accounting in Topic 718. The Company adopted ASU 2017-09 during the year ended March 31, 2019 and it did not have a material effect on the consolidated balance sheet and the consolidated results of operations.

Recently Issued

In January 2017, the FASB issued ASU 2017-01, “Business Combinations: Clarifying the definition of a Business” which amends the current definition of a business. Under ASU 2017-01, to be considered a business, an acquisition would have to include an input and a substantive process that together significantly contributes to the ability to create outputs. ASU 2017-01 further states that when substantially all of the fair value of gross assets acquired is concentrated in a single asset (or a group of similar assets), the assets acquired would not represent a business.

The new guidance also narrows the definition of the term “outputs” to be consistent with how it is described in Topic 606, Revenue from Contracts with Customers. The changes to the definition of a business will likely result in more acquisitions being accounted for as asset acquisitions. ASU 2017-01 is effective for acquisitions commencing on or after September 30, 2019, with early adoption permitted. Adoption of this guidance will be applied prospectively on or after the effective date and the Company does not expect this policy will have a material effect on the consolidated balance sheet or consolidated statement of cash flows.

In January 2017, the FASB issued ASU 2017-04, “Intangibles – Goodwill and Other” ASU 2017-04 simplifies the accounting for goodwill impairment by eliminating Step 2 of the current goodwill impairment test, which required a hypothetical purchase price allocation. Goodwill impairment will now be the amount by which the reporting unit’s carrying value exceeds its fair value, limited to the carrying value of the goodwill. ASU 2017-04 is effective for financial statements issued for fiscal years, and interim periods beginning after December 15, 2019. The Company is still assessing the impact that the adoption of ASU 2017-04 will have on the consolidated balance sheet and consolidated statement of operations.

In June 2016, the FASB issued ASU 2016-13 Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses of Financial Instruments, which introduces an expected credit loss methodology for the impairment of financial assets measured at amortized cost basis. The methodology replaces the probable, incurred loss model for those assets. The update is effective for fiscal years beginning after December 15, 2019. The Company is still assessing the impact that the adoption of ASU 2016-13 will have on the consolidated balance sheet and consolidated statement of operations.

Warranty Reserve and Deferred Warranty Revenue

The Company provides a one-year warranty as part of its normal sales offering. When products are sold, the Company provides warranty reserves, which, based on the historical experience of the Company are sufficient to cover warranty claims. Accrued warranty reserves are included in accrued liabilities on the condensed consolidated interim balance sheets and amounted to \$165,207 at September 30, 2019 (March 31, 2019 - \$143,500). The Company also sells extended warranties for additional periods beyond the standard warranty. Extended warranty revenue is deferred and recognized as revenue over the extended warranty period. The Company recognized \$26,912 of expenses related to warranty expenses and recorded this expense in cost of goods sold for the six-month period ended September 30, 2019 (September 30, 2018 - \$10,108).

4. TECHNOLOGY AND OTHER ASSETS

The schedule below reflects the intangible assets acquired in the IMT acquisition and the assets amortization period and expense for the six months ended September 30, 2019, and the year ended March 31, 2019:

Intangible assets acquired	Amortization period (years)	Value Acquired \$	Amortization March 31, 2019 \$	Value at March 31, 2019 \$	Amortization September 30, 2019 \$	Value at September 30, 2019 \$
Patents and exclusive License Agreement	9.74	1,306,031	134,090	911,440	67,044	844,396
Trademark	Indefinite	2,505,907	-	2,505,907	-	2,505,907
Customer relationships	10	1,431,680	143,168	1,010,375	71,584	938,791
Non compete agreement	2	61,366	1,739	-	-	-
Assembled workforce	1	275,720	-	-	-	-
		5,580,704	278,997	4,427,722	138,628	4,289,094

Amortization expense for the technology and other assets was \$138,628 and \$140,368 for the six months ended September 30, 2019 and 2018, respectively. Amortization expensed for the technology and other assets was \$69,314 and \$69,315 for the three months ended September 30, 2019 and 2018, respectively.

5. PREPAID EXPENSES AND OTHER RECEIVABLES

	September 30, 2019	March 31, 2019
	\$	\$
Prepaid expenses and other receivables	147,858	92,170
Prepaid inventory	1,897,873	1,144,392
Prepaid insurance	117,343	66,320
Sales taxes receivable (i)	29,103	52,150
	<u>2,192,177</u>	<u>1,355,032</u>

i) Sales tax receivable represents net harmonized sales taxes (HST) input tax credits receivable from the Government of Canada.

6. INVENTORIES

	September 30, 2019	March 31, 2019
Finished Goods	<u>1,037,058</u>	<u>405,682</u>

During the three and six month period ended September 30, 2019, the Company expensed \$76,843 and \$376,639 in inventory as cost of goods sold (September 30, 2018 - \$342,345 and \$579,354). The Company no longer maintains a raw materials inventory as it has outsourced its manufacturing to a third party.

7. EQUIPMENT

Equipment consisted of the following as at September 30, 2019 and March 31, 2019:

	September 30, 2019			March 31, 2019		
	Cost	Accumulated Depreciation	Net	Cost	Accumulated Depreciation	Net
	\$	\$	\$	\$	\$	\$
Computers and electronics	296,917	253,648	43,269	286,855	243,346	43,509
Furniture and fixtures	36,795	30,333	6,462	36,795	29,648	7,147
Demonstration equipment	352,694	184,311	168,383	271,615	147,257	124,358
Manufacturing equipment	88,742	86,471	2,271	88,742	86,230	2,512
Tools and parts	11,422	7,224	4,198	11,422	6,779	4,643
Assets under capital lease	23,019	14,962	8,057	23,019	12,660	10,359
	<u>809,589</u>	<u>576,949</u>	<u>232,640</u>	<u>718,448</u>	<u>525,920</u>	<u>192,528</u>

Equipment is recorded at cost less accumulated depreciation. Depreciation expense during the three-and six month period ended September 30, 2019 was \$27,059 and \$51,029 (September 30, 2018 - \$16,626 and \$34,221, respectively).

8. NOTES PAYABLE

(a) Convertible Loans Payable

During the six months ended September 30, 2019, the Company received loans from new and existing investors totaling \$9,000,000 pursuant to an up to \$9,000,000 convertible note offering. This included the conversion and satisfaction of an existing \$500,000 term loan at June 30, 2019. The convertible notes bore interest at a fixed rate of 1% per month until September 30, 2019 and \$6,070,000 of these convertible notes were converted into common shares of the Company on September 30, 2019 at a conversion price of \$6.80 per share and \$2,930,000 of these convertible notes were converted into common shares of the Company on September 30, 2019 at a conversion price of \$8.265.

The interest accrued on these convertible loans for the three and six months ended September 30, 2019 was \$139,477 and \$143,927 respectively and the interest was converted into shares at the respective conversion prices.

In the event the Company raises capital through the sale of Common Stock for cash during the period ending on the three year anniversary of the earliest issuance date of the convertible notes, and the price per share thereof (the “Offering Price”) is less than the original Conversion Price, then in such event the Company shall issue to all convertible loan holder at, at no further cost, additional shares of common stock equal to the number of conversion shares the holders would have received upon conversion if the Conversion Price equaled the Offering Price, less the number of shares of conversion shares actually issued on or as of the Maturity Date. Since the Company has early adopted ASU 2017-11, the anti-dilution protection clause does not contribute to the conversion feature to be a derivative liability.

March 31, 2019	-
Convertible loans issued	\$ 9,000,000
Interest	143,927
Convertible loans and interest converted in 1,268,191 shares	(9,143,927)
September 30, 2019	<u>\$ -</u>

(b) Convertible Loans Payable

During the six months ended September 30, 2019, the Company received \$70,000 from an existing investor pursuant to a \$3,000,000 (or up to \$7,000,000 at the discretion of the Company) convertible note offering. The convertible notes bear interest at a fixed rate at 1% per month and will be payable, along with the principal amount on the earlier of (the “Maturity Date”); (a) March 20, 2020 and (b) the consummation of the offering provided that the Company raises in one or more tranches aggregate gross proceeds of no less than \$3,000,000. The convertible loans will be convertible into equity of the Company upon the following events on the following terms:

- (i) On the Maturity Date, the outstanding principal and accrued and unpaid interest under the convertible note will be converted into shares of common stock at a conversion price of \$8.55 per shares in the event of an investment on or prior to September 30, 2019, and \$9.50 per share in the event of an investment after September 30, 2019. (the Conversion Price”).
- (j) Upon change of control transaction prior to the Maturity Date, the outstanding principal and accrued and unpaid interest under the convertible notes would, at the election of the holders of a majority of the outstanding principal of the loans under the offering, be either (i) payable upon demand as of the closing of such change of control transaction or (ii) convertible into shares of the Company’s common stock immediately prior to such change of control transaction at a price per share equal to the lesser of (x) the Conversion Price or (y) the per share consideration to be received by the holders of the common stock in such change of control transaction.

The interest accrued on these convertible loans for the six months ended September 30, 2019 was \$117.

9. RELATED PARTY TRANSACTIONS AND BALANCES

(a) Due from related parties

At September 30, 2019 there was an outstanding loan to the Chief Technology Officer (“CTO”) of the Company of \$18,932 (March 31, 2019 – \$18,585). The loan had an interest rate of 1% until June 30, 2018 and 2% after this date based on the Canada Revenue Agency’s prescribed rate for such advances and is denominated in Canadian dollars. During the six month period ended September 30, 2019, the Company accrued interest receivable in the amount of \$236 (March 31, 2019 – \$353); the remaining fluctuation in the balance from the prior year is due to changes in foreign exchange.

(b) Accounts payable and accrued liabilities

As at September 30, 2019, \$1,957 (March 31, 2019 – \$229,473) was owing to the CEO of the Company; \$12,813 (March 31, 2019 – \$14,851) was owing to the Chief Technology Officer; \$1,845 (March 31, 2019 – \$33,387) was owing to the Chief Financial Officer (“CFO”), \$Nil (March 31, 2019 – \$28,025) was owing to the current and former Chief Commercial Officer (“CCO”), all related to bonuses and business expenses. All bonuses accrued at March 31, 2019 have been paid.

10. SHARE CAPITAL

	September 30, 2019		March 31, 2019	
	Number of shares	\$	Number of shares	\$
Exchangeable Shares				
Balance beginning of year	196,799	197	295,146	295
Converted into common shares (a)	(40,560)	(41)	(98,347)	(98)
Balance at end of year	156,239	156	196,799	197
Common Shares				
Balance at beginning of the year	3,661,838	3,661	1,368,856	1,369
Shares issued to exchangeable shareholders (a)	40,560	41	98,347	98
Shares issued on conversion of loans	1,268,191	1,268	2,194,133	2,194
Share consolidation rounding adjustment	6	-	502	-

TOTAL SHARES	5,126,834	5,126	3,858,637	3,858

- (a) During the six months ended September 30, 2019, 40,560 exchangeable shares were exchanged for common shares on a 1 for 1 basis in accordance with their terms. (March 31, 2019 – 98,347 shares)
- (b) On September 30, 2019 \$9,143,927 of promissory notes and interest were converted into 1,268,191 common shares. These shareholders have price protection until June 10, 2022.
- (c) On October 29, 2018, the Company completed a one-for-one hundred and fifty (1:150) reverse stock consolidation that has been reflected in all shares and per share amounts, warrants and options.

Special Voting Preferred Share

In connection with the Merger (Note 1), on February 26, 2015, the Company entered into a voting and exchange trust agreement (the “Trust Agreement”). Pursuant to the Trust Agreement, the Company issued one Special Voting Preferred Share to the Trustee, and the parties created a trust for the Trustee to hold the Special Voting Preferred Share for the benefit of the holders of the Exchangeable Shares (the “Beneficiaries”). Pursuant to the Trust Agreement, the Beneficiaries will have voting rights in the Company equivalent to what they would have had, had they received shares of common stock in the same amount as the Exchangeable Shares held by the Beneficiaries. In connection with the Merger and the Trust Agreement, effective February 20, 2015, the Company filed a certificate of designation of the Special Voting Preferred Share (the “Special Voting Certificate of Designation”) with the Delaware Secretary of State. Pursuant to the Special Voting Certificate of Designation, one share of the Company’s blank check preferred stock was designated as Special Voting Preferred Share. The Special Voting Preferred Share entitles the Trustee to exercise the number of votes equal to the number of Exchangeable Shares outstanding on a one-for-one basis during the term of the Trust Agreement. The Special Voting Preferred Share is not entitled to receive any dividends or to receive any assets of the Company upon liquidation and is not convertible into shares of common stock of the Company. The voting rights of the Special Voting Preferred Share will terminate pursuant to and in accordance with the Trust Agreement and the Special Voting Preferred Share will be automatically cancelled.

11. STOCK OPTIONS

The purpose of the Company's equity incentive plan, is to attract, retain and motivate persons of training, experience and leadership to the Company, including their directors, officers and employees, and to advance the interests of the Company by providing such persons with the opportunity, through share options, to acquire an increased proprietary interest in the Company.

Options or other securities may be granted in respect of authorized and unissued shares, provided that the aggregate number of shares reserved for issuance upon the exercise of all options or other securities granted under the Plan shall not exceed 15% of the shares of common stock and Exchangeable Shares issued and outstanding (determined as of January 1 of each year). Optioned shares in respect of which options are not exercised shall be available for subsequent options.

On April 26, 2016, the Company issued 1,667 options to an employee with an exercise price of \$150.00 per share that will vest over three years at the anniversary date. The grant fair value was \$213,750. During the three and six months ended September 30, 2019 \$Nil and \$3,431 (September 30, 2018 – \$17,813 and \$35,625) was recognized as stock compensation expense due to the employee leaving the Company.

On February 6, 2017, the Company issued 2,667 options to an employee with an exercise price of \$105.00 per share that will vest over three years at the anniversary date. The grant fair value was \$245,200. During the three and six months ended September 30, 2019 \$20,433 and \$40,867 (September 30, 2018 – \$20,433 and \$40,867) of stock compensation expense was recognized.

On September 1, 2017, the Company granted 81,436 options at \$24.15 per share equally to an executive officer and a consultant, who is now the Chairman of the Company. 27,148 options have vested and 50% of the remaining options vest on performance being met and 50% vest annually over 5 years for the CEO, for our Chairman the options vest over 5 years. The grant date fair value was \$1,832,304 and \$133,605 and \$190,865 is the current expense for the three and six months ended September 30, 2019 (September 30, 2018 – \$190,865 and \$229,037).

On January 24, 2018, the Company granted 24,267 options at \$23.25 per share to employees that vest equally on January 24, 2019, 2020 and 2021. 7,334 options were cancelled for the year ended March 31, 2019 and 778 for the three and six month period ended September 30, 2019. The grant fair value was \$491,036 and \$26,306 and \$54,860 is the current stock compensation expense for the three and six months ended September 30, 2019 (September 30, 2018 – \$37,266 and \$76,968).

On April 30, 2018, the Company granted to an executive officer, 40,000 options with an exercise price of \$9.74 that vest immediately with a 10-year expiry. These options were valued using the Black Scholes model and the following inputs were used: expected life 10 years, expected volatility 114% and a risk-free rate of 1.59%. As these options vested immediately as of the grant date and \$363,714 of stock compensation expense was recorded for the year ended March 31, 2019.

On June 11, 2018, the Company granted to an executive officer, 5,000 options with an exercise price of \$6.93 per share that vest over three years from the anniversary of the grant and expire in 7 years. The options were valued using the Black Scholes model and the following inputs were used: expected life of 7 years, expected volatility of 114% and a risk-free rate of 1.59%. The grant fair value was \$30,341 and \$Nil and \$1,686 of stock compensation was recognized for three and six months ended September 30, 2019 (September 30, 2018 \$2,528 and \$3,090). This executive left the Company and all 5,000 options were cancelled, as they had not vested.

On May 31, 2019 169,882 options were issued to employees and directors of the Company with an exercise price of \$3.16 per share that vest over 18 months, with one third immediately vesting and one third vesting in each of the following two 6-month periods and expire in 7 years. The options were valued using the Black Scholes model and the following inputs were used: expected life of 7 years, expected volatility of 114% and a risk-free rate of 1.59%. The grant fair value was \$453,585 and \$84,601 and \$260,995 of stock compensation was recognized for three and six months ended September 30, 2019.

On July 26, 2019, 484,612 options were granted to employees and consultants at an exercise price of \$3.595. The options were using the Black Scholes model and the following inputs were used: expected life of 7 years, expected volatility of 114% and a risk-free rate of 1.59%. The grant fair value was \$1,525,525 and \$372,923 of stock compensation was recognized for three and six months ended September 30, 2019.

On September 3, 2019, 5,000 options were granted to an employee at an exercise price of \$3.20 which vest over three years starting September 3, 2020. The options were valued using the Black Scholes model and the following inputs were used: expected life of 7 years, expected volatility of 114% and a risk-free rate of 1.59%. The grant fair value was \$14,010 and \$350 of stock compensation was recognized for the three and six months ended September 30, 2019.

During the three and six months ended September 30, 2019, the Company recorded \$638,219 and \$925,976 in share-based compensation related to the vesting of stock options (September 30, 2018 – \$439,328 and \$1,034,740).

(Amounts expressed in U.S. Dollars) (unaudited)

12. WARRANTS

The following is a continuity schedule of the Company's common share purchase warrants:

	Number of Warrants	Weighted Average Exercise Price (\$)
Outstanding and exercisable, March 31, 2018 and September 30, 2018	365,974	53.19
Issued in connection with anti-dilution provision connected warrant transaction	67,952	55.71
Issued in connection with anti-dilution provision connected warrant transaction	6,305	34.50
Issued in connection with anti-dilution provision connected warrant transaction	52,590	38.91
Expired	(204,304)	(51.85)
Outstanding and exercisable, March 31, 2019	288,517	40.27
Expired	(163,483)	(38.91)
Outstanding and exercisable, September 30, 2019	125,034	20.07

During the six months ended September 30, 2019, 163,483 warrants expired in accordance with their terms (September 30, 2018 – Nil)

Common share purchase warrants

The following is a summary of common share purchase warrants outstanding as of September 30, 2019.

Exercise Price (\$)	Number of Warrants	Expiry Date
90.00	15,658	March 31, 2023
37.50	2,667	June 27, 2020
9.375	64,025	August 14, 2022
9.375	42,684	March 31, 2022
	125,034	

The weighted-average remaining contractual term of the outstanding warrants was 2.82 years (March 31, 2019 – 1.51 years).

BIONIK LABORATORIES CORP.
NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS
For the six month periods ended September 30, 2019 and 2018
(Amounts expressed in U.S. Dollars) (unaudited)

13. COMMITMENTS AND CONTINGENCIES

Contingencies

From time to time, the Company may be involved in a variety of claims, suits, investigations and proceedings arising in the ordinary course of our business, collections claims, breach of contract claims, labor and employment claims, tax and other matters. Although claims, suits, investigations and proceedings are inherently uncertain and their results cannot be predicted with certainty, the Company believes that the resolution of current pending matters will not have a material adverse effect on its business, financial position, results of operations or cash flow. Regardless of the outcome, litigation can have an adverse impact on the Company because of legal costs, diversion of management resources and other factors.

Commitments

- (a) On February 25, 2015, 1,753 common shares were issued to two former lenders connected with a \$241,185 loan received and repaid during fiscal 2013. The common shares were valued at \$210,323 based on the value of the concurrent private placement and recorded in stock-based compensation on the consolidated statement of operations and comprehensive loss. As part of the consideration for the initial loan, the Company's then-CTO and COO had transferred 2,098 common shares to the lenders. For contributing the common shares to the lenders, the Company intends to reimburse the former CTO and COO 2,134 common shares. As at September 30, 2019 these shares have not yet been issued.
- (b) On May 17, 2017, the Company entered into a Co-operative Joint Venture Contract (the "JV Contract") with Ginger Capital Investment Holding, Ltd. (the "JV Partner") to form China Bionik Medical Rehabilitation Technology Ltd. ("China JV"), in which the Company will have a 25% interest and the JV Partner 75%. The China JV was formally established on receiving a business license on May 22, 2018. Under the terms of the JV Contract, the JV Partner is required to contribute \$290,000 within 30 days of the date of establishment, \$435,000 12 months later and \$725,000, 60 months after the date of establishment. The Company is required to license certain intellectual property to the China JV. The Company is applying the equity method of accounting to the joint venture. As of September 30, 2019, the Company has provided certain technical information to the Chinese JV in order to obtain Chinese regulatory approvals.
- (c) In connection with the acquisition of IMT, the Company acquired a license agreement dated June 8, 2009, with a former director as a co- licensor, pursuant to which the Company pays the director and the co-licensor an aggregate royalty of 1% of sales based on patent #8,613,691. No sales have been made, as the technology under this patent has not been commercialized.
- (d) The Company has committed to upgrading two robots previously sold to a customer to the newest version when released. As part of this transaction, the customer will enter into an extended warranty agreement that will be approximately equal to the manufacturing value of robots. These 2 robots were shipped in November 2019 and the warranty revenue will be recognized over the term of the warranty.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

This Quarterly Report on Form 10-Q contains statements reflecting assumptions, expectations, projections, intentions or beliefs about future events that are intended as "forward-looking statements". All statements included or incorporated by reference in this Quarterly Report on Form 10-Q, other than statements of historical fact, that address activities, events or developments that we expect, believe or anticipate will or may occur in the future are forward-looking statements. These statements appear in a number of places, including, but not limited to in this "Management's Discussion and Analysis of Financial Condition and Results of Operations." These statements represent our reasonable judgment of the future based on various factors and using numerous assumptions and are subject to known and unknown risks, uncertainties and other factors that could cause our actual results and financial position to differ materially from those contemplated by the statements. You can identify these statements by the fact that they do not relate strictly to historical or current facts, and use words such as "anticipate," "believe," "estimate," "expect," "forecast," "may," "will," "should," "plan," "project" and other words of similar meaning. In particular, these include, but are not limited to, statements relating to the following:

- projected operating or financial results, including anticipated cash flows used in operations;
- expectations regarding capital expenditures; and
- our beliefs and assumptions relating to our liquidity position, including our ability to obtain additional financing.

Any or all of our forward-looking statements may turn out to be wrong. They can be affected by inaccurate assumptions or by known or unknown risks, uncertainties and other factors including, among others:

- the loss of key management personnel on whom we depend;
- our ability to operate our business efficiently, manage capital expenditures and costs (including general and administrative expenses) and obtain financing when required; and
- our expectations with respect to our acquisition activity.

In addition, there may be other factors that could cause our actual results to be materially different from the results referenced in the forward-looking statements, some of which are included in this Quarterly Report on Form 10-Q, including in this "Management's Discussion and Analysis of Financial Condition and Results of Operations." Many of these factors will be important in determining our actual future results. Consequently, no forward-looking statement can be guaranteed. Our actual future results may vary materially from those expressed or implied in any forward-looking statements. All forward-looking statements contained in this Quarterly Report on Form 10-Q are qualified in their entirety by this cautionary statement. Forward-looking statements speak only as of the date they are made, and we disclaim any obligation to update any forward-looking statements to reflect events or circumstances after the date of this Quarterly Report on Form 10-Q, except as otherwise required by applicable law.

This discussion and analysis should be read in conjunction with the accompanying condensed consolidated interim financial statements and related notes, and the Company's Annual Report on Form 10-K for the year ended March 31, 2019 as filed with the Securities and Exchange Commission.

The discussion and analysis of the financial condition and results of operations are based upon the financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States ("U.S. GAAP"). The preparation of financial statements in conformity with U.S. GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of any contingent liabilities at the financial statement date and reported amounts of revenue and expenses during the reporting period. On an on-going basis we review our estimates and assumptions. The estimates were based on historical experience and other assumptions that we believe to be reasonable under the circumstances. Actual results are likely to differ from those estimates under different assumptions or conditions, but we do not believe such differences will materially affect our financial position or results of operations.

In light of these risks and uncertainties, and especially given the nature of our existing and proposed business, there can be no assurance that the forward-looking statements contained in this section and elsewhere in this Quarterly Report on Form 10-Q will in fact occur. Potential investors should not place undue reliance on any forward-looking statements. Except as expressly required by the federal securities laws, there is no undertaking to publicly update or revise any forward-looking statements, whether as a result of new information, future events, changed circumstances or any other reason.

The discussion and analysis of the financial condition and results of operations are based upon the financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of any contingent liabilities at the financial statement date and reported amounts of revenue and expenses during the reporting period. On an on-going basis we review our estimates and assumptions. The estimates were based on historical experience and other assumptions that we believe to be reasonable under the circumstances. Actual results are likely to differ from those estimates under different assumptions or conditions, but we do not believe such differences will materially affect our financial position or results of operations.

Company Overview

Bionik Laboratories Corp. is a healthcare company focused on improving the quality of life of millions of people with neurological or mobility impairments by combining artificial intelligence and innovative robotics technology to help individuals from hospital to home to regain mobility, enhance autonomy, and regain self-esteem.

The Company uses artificial intelligence and machine learning technologies to make rehabilitation methods and processes smarter and more intuitive to deliver greater recovery for patients with neurological or mobility impairments. These technologies allow large amounts of data to be collected and processed in real-time, enabling appropriately challenging and individualized therapy during every treatment session. This is the foundation of the InMotion™ therapy. The Company's rehabilitation therapy robots are built on an artificial intelligence platform, measuring the position, the speed and the acceleration of the patient 200 times per second. The artificial intelligence platform is designed to adapt in real time to the patient's needs and progress while providing quantifiable feedback of a patient's progress and performance, in a way that the Company believes a trained clinician cannot.

Based on this foundational work, the Company has a portfolio of products focused on upper and lower extremity rehabilitation for stroke and other mobility-impaired individuals, including three InMotion™ robots currently in the market and two products in varying stages of development.

The InMotion™ therapy uses the Company's robots to assist patients to rewire a segment of their brains after injury, also known as neuroplasticity. The InMotion™ Robots - the InMotion™ ARM, InMotion™ WRIST and the InMotion™ ARM/HAND – are designed to provide intelligent, adaptive therapy in a manner that has been clinically shown to maximize neurorecovery. The Company is also developing a home version of the InMotion™ upper-body rehabilitation technology, as well as a lower-body wearable assistive product based on the Company's existing ARKE lower body exoskeleton technology, which could allow certain mobility impaired individuals to walk better. The Company intends to launch this mobility assistance solution into the consumer market when the Company has sufficient funds to develop this product.

The InMotion™ ARM, InMotion™ ARM/HAND, and InMotion™ WRIST are robotic therapies for the upper limbs. InMotion™ robotic therapies have been characterized as Class II medical devices by the U.S. Food and Drug Administration, or FDA, and are listed with the FDA to market and sell in the United States. More than 280 of our clinical robotic products for stroke rehabilitation have been sold in over 15 countries, including the United States. In addition to these fully developed, clinical rehabilitation solutions, we are also developing "InMotion™ Home", which is an upper extremity product that allows the patient to extend their therapy for as long as needed while rehabilitating at home. This rehabilitation solution is being developed on the same design platform as the InMotion™ clinical products.

We believe recent payment changes in the US marketplace proposed and finalized by the Centers for Medicare and Medicaid Services create a favorable environment for greater clinical adoption of our robotic technology. For instance, the Improving Medicare Post-Acute Care Transformation Act of 2014, or the Impact Act of 2014, began the shift toward standardizing patient assessment data for quality measures. The updated Prospective Payment System (PPS), SNF QRP (Quality Reporting Program) and SNF VBP (Value Based Purchasing) programs have further shifted reimbursement toward the needs of the patient and away from volume of services provided in the skilled nursing setting. Other programs have caused a similar shift in the Inpatient Rehabilitation Facility setting, as well. We expect that in the next 3-9 months, further incentives toward quality based care will be implemented, resulting in providers being publicly ranked, as well as financially rewarded, for quality reporting and better outcomes.

We have a growing body of clinical data for our products. More than 1,500 patients participated in trials using our InMotion™ robots, the results of which have been published in peer-reviewed medical journals (including the New England Journal of Medicine and Stroke).

An earlier model of InMotion™ robots were used in a multicenter randomized controlled phase III interventional trial, funded by the National Institute for Health Research Health Technology Assessment Program (RATULS) in the United Kingdom. The study was completed in 2018, included the enrollment of 770 stroke patients in a multi-center randomized controlled research trial to evaluate the clinical and cost effectiveness of robot-assisted training in post-stroke care. The Company is pleased that the RATULS trial confirmed the finding of previous research studies which demonstrated that robot assisted therapy improved upper limb impairment when compared with conventional care of stroke victims. The primary outcome for upper limb success was determined by an Action Research Arm Test (ARAT), with four distinct success criteria that varied according to baseline severity. This test with these success criteria was developed by the RATULS trial team for this study and has not been used previously in clinical trials. The findings of this major research trial demonstrated that robot assisted therapy improved upper limb impairment, however, using this ARAT measurement, the trial was unable to conclude that robot assisted therapy or enhance upper limb therapy resulted in improved upper limb functionality after stroke compared with usual care provided to patients with stroke related upper limb functional limitation. The study findings also showed that the attrition rate was drastically reduced in the patient population following either robotic therapy or enhanced upper limb therapy versus usual care only. Most of the withdrawals from the study were before 3 months of usual care due to the disappointment with the treatment allocation.

In addition to our proprietary in-house products, we had the exclusive right to market and sell the Morning Walk lower body rehabilitation technology owned by Curexo Inc., a South Korean company, within the United States. We have decided not to distribute the Morning Walk product due to market conditions in the U.S. and are renegotiating the contract with our distributor in Korea. We may in the future further augment our product portfolio through technology acquisition opportunities should they come available and if we are sufficiently capitalized to undertake these investments.

On December 14, 2018, we entered into a Sale of Goods Agreement (the “Agreement”) with CHC Management Services, LLC, or Kindred, pursuant to which, among other things, Kindred agreed to purchase from us in a first phase a minimum of 21 of the Company’s InMotion™ ARM Interactive Therapy Systems – a minimum of one for each of Kindred’s existing and soon-to-open affiliated inpatient rehabilitation hospitals and similar facilities described in the Agreement, and in a second phase a minimum of one InMotion™ ARM Interactive Therapy System for each future facilities of Kindred, during the four-year minimum term of the Agreement. Kindred entered into an initial purchase order for nine InMotion™ ARM Interactive Therapy System that shipped before December 31, 2018, with further robots in the year ended March 31, 2019 and six months ended September 30, 2019, for a total of 21 InMotion™ robots sold prior to the period ended September 30, 2019.

On January 23, 2019, we announced the commercial launch of our newest generation InMotion™ ARM/HAND robotic system for clinical rehabilitation of stroke survivors and those with mobility impairments due to neurological conditions. The improved new generation InMotion™ ARM/HAND was developed according to the same principals of motor learning and neuro plasticity that were incorporated into the original InMotion™ ARM robotic system and utilizes artificial intelligence and data analysis to provide individualized therapy and reports that empower patients.

It includes the following new features:

- Enhanced hand-rehabilitation technology: The updated hand robot provides therapy focused on hand opening and grasping for patients ready to retrain reach and grasp functional tasks.
- InMotion™ EVAL: The InMotion™ ARM/HAND offers the ability to assess hand movements in a precise and objective manner, allowing the clinician to better measure and quantify a patient’s progress and response to therapy.
- Improved, comprehensive reporting: Optimized report formats provide improved documentation of patient outcomes, improved ease of use and enhanced interpretation of evaluation results, allowing clearer indications of progress over their complete rehabilitation journey, all on one screen.

We are collaborating with Intellware Development, a leading custom software solutions company based in Toronto to customize and deploy a new software platform, InMotion Connect™. InMotion Connect™ is designed to target the critical need to link patient centric rehabilitation results to patient management portals and electronic medical records (EMR) at any hospital or rehabilitation facility. We believe that leveraging Intellware’s healthcare software development expertise will ensure the HL7 compliant InMotion Connect™ will seamlessly feed data through existing various hospital protocols, providing practitioners protected patient data and treatment results. Customized reporting capabilities in the platform focus on facility and organization measurement dashboards to support effective decision making for clinicians and for hospital management.

We have worked with industry leaders in manufacturing and design and have also expanded our development team through partnerships with researchers and academia. On May 17, 2017, we entered into a Co-operative Joint Venture Contract with Ginger Capital Investment Holding Ltd., pursuant to which the Company has a 25% interest and Ginger Capital has a 75% interest. As of the date of this 10-Q, Ginger Capital is obligated to contribute \$725,000 to the joint venture and is required to contribute an additional \$725,000 by May 22, 2023. To date, the Chinese partners of the JV have contributed \$1,100,000 to the JV. Three InMotion™ robots have been delivered from us to the joint venture, which were used for product demonstration and for quality assessment by Chinese authorities. During the period ended September 30, 2019, due to regulatory restrictions only 3 new robots were shipped by Bionik to the Chinese JV according to contract terms.

On June 20, 2017, we entered into a joint development and manufacturing agreement with Wistron Medical Tech Holding Company of Taiwan to jointly develop a lower body assistive robotic product based on the ARKE technology for the consumer home market. As the lower body assistive robotic device is on an engineering hold due to prioritizing the development of the InMotion™ Home robotic device, no work has been done with Wistron recently.

We have also entered into an agreement with Cogmedix Inc., a wholly owned subsidiary of Coghlin Companies, a medical device development and manufacturing company located in West Boylston, MA, for the production of InMotion™ robots. The initial agreement is for turnkey, compliant manufacturing with the capability of scaling faster production to meet increased volume as the Company grows. In addition, our Massachusetts-based manufacturing facility is compliant with ISO- 13485 and FDA regulations.

We currently hold an intellectual property portfolio that includes 4 U.S. patents and 2 U.S. pending patent, 5 of which are pending internationally, as well as other patents under development. We may file provisional patents from time to time, which may expire if we do not pursue full patents within 12 months of the filing date. One new provisional patent has recently been filed, pertaining to BIONIK's InMotion™ Home development, which the Company plans to file as a full patent prior to the 12-month deadline. The provisional patents may not be filed as full patents and new provisional patents may be filed as the technology evolves or changes. Additionally, we hold exclusive licenses to three additional patents of which one is currently being used for the InMotion™ Wrist and is licensed to us from the Massachusetts Institute of Technology.

We have filed trademarks in the U.S. and European Union for InMotion™, InMotion Connect™, InMotion Pulse™, and InMotion Insights™; the trademark for InMotion™ is registered in the European Union and pending in the U.S., while InMotion Connect™, InMotion Pulse™, and InMotion Insights™ are pending in both jurisdictions. These trademarks are to be used for the robots and software that Bionik develops and sells related to this product line.

We currently sell our products directly or can introduce customers to a third-party finance company to lease at a monthly fee over the term or other fee structure for our products to hospitals, clinics, distribution companies and/or buying groups that supply those rehabilitation facilities.

We introduced our new enhanced commercial version of the InMotion™ product line starting with the InMotion™ Arm in December 2017 and then the InMotion™ Arm/Hand in January 2019. We sold 11 InMotion™ robots in the year ended March 31, 2018, 33 InMotion™ robots in the year ended March 31, 2019 and 2 and 8 robots in the first three and six months respectively ended September 30, 2019.

We had \$281,691 and \$1,072,070 of revenue for the three and six months ended September 30, 2019 (September 30, 2018 – \$547,085 and \$1,048,418).

History; Recent Developments

Bionik Laboratories Corp. was incorporated on January 8, 2010 in the State of Colorado. At the time of our incorporation the name of our company was Strategic Dental Management Corp. On July 16, 2013, we changed our name from Strategic Dental Management Corp. to Drywave Technologies, Inc. and changed our state of incorporation from Colorado to Delaware. Effective February 13, 2015, we changed our name to Bionik Laboratories Corp.

Bionik Laboratories Inc., which we refer to in this Form 10-Q as Bionik Canada, was incorporated on March 24, 2011 under the Canada Business Corporations Act.

On February 26, 2015, we entered into an Investment Agreement with Bionik Acquisition Inc., a company existing under the laws of Canada and our wholly owned subsidiary, and Bionik Canada whereby we acquired 100 Class 1 common shares of Bionik Canada representing 100% of the outstanding Class 1 common shares of Bionik Canada. After giving effect to this and related transactions, we commenced operations through Bionik Canada. Subsequently, on April 21, 2016, we acquired Interactive Motion Technologies, Inc., or IMT, a Boston, Massachusetts-based provider of effective robotic products for neurorehabilitation, including all of its owned and licensed products both commercialized and in development.

We effected a one-for-one hundred fifty reverse stock split on October 29, 2018. As a result of the reverse stock split, each one hundred fifty shares of our common stock automatically combined into and became one share of our common stock. Accordingly, as of October 29, 2018, there were 2,337,964 shares of our common stock issued and outstanding. Any fractional shares which would otherwise be due as a result of the reverse stock split were rounded up to the nearest whole share. The reverse stock split automatically and proportionately adjusted, based on the one-for-one hundred fifty reverse stock split ratio, all issued and outstanding shares of our common stock and exchangeable shares, as well as common stock underlying stock options, warrants and other derivative securities outstanding at the time of the effectiveness of the reverse stock split. The exercise price on outstanding equity based-grants was proportionately increased, while the number of shares available under our equity-based plans was also proportionately reduced. Share and per share data (except par value) for the periods presented reflect the effects of this reverse stock split. References to numbers of shares of common stock and per share data in the accompanying financial statements and notes thereto relating to dates prior to the reverse stock split have been adjusted to reflect the reverse stock split on a retroactive basis.

From June through September 2019, we issued convertible promissory notes in the aggregate principal amount of \$9,000,000 to investors, which included an aggregate of \$500,000 from an affiliate of Remi Gaston-Dreyfus, a director and major shareholder of the Company. Pursuant to the terms of such notes, as of September 30, 2019, the principal amount and accrued interest of the notes converted in accordance under their terms into an aggregate of 1,268,191 shares of the Company's common stock.

In September 2019, we commenced an up to \$3 million convertible note offering (or up to \$7,000,000 in the discretion of the Company), of which \$70,000 has been raised through November 12, 2019.

Corporate Information

Our principal executive office is located at 483 Bay Street, N105, Toronto, ON, Canada M5G 2C9 and our main corporate telephone number is (416) 640-7887 x 508. Our principal US office is located at 80 Coolidge Hill Road, Watertown, MA, USA 02472. Our website is www.bioniklabs.com. Information on our website does not constitute a part of this Quarterly Report on Form 10-Q.

Significant Accounting Policies and Estimates

The discussion and analysis of the financial condition and results of operations are based upon the financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of any contingent liabilities at the financial statement date and reported amounts of revenue and expenses during the reporting period. On an on-going basis we review our estimates and assumptions. The estimates were based on historical experience and other assumptions that we believe to be reasonable under the circumstances. Actual results are likely to differ from those estimates under different assumptions or conditions, but we do not believe such differences will materially affect our financial position or results of operations.

Results of Operations

From the inception of Bionik Canada on March 24, 2011 through September 30, 2019 and we have generated a deficit of \$51,860,701.

We expect to incur additional operating losses through the fiscal year ending March 31, 2020 and beyond, principally as a result of our continuing research and development, building the sales and marketing team, long sales cycles and general and administrative costs predominantly associated with being a public company

For the three and six months ended September 30, 2019 compared to the three and six months ended September 30, 2018

Sales were \$281,691 and \$ 1,072,070 for the three and six months ended September 30, 2019 (September 30, 2018 – \$547,085 and \$1,048,418). The revenues for the three and six months ended September 30, 2019 are comprised of sales of 2 and 8 (September 30, 2018 – 7 and 12) InMotion™ robots, service and warranty income Sales decreased from the prior three and six month corresponding period of 2018 due to the Company's long sales cycle.

Cost of Sales and Gross Margin

Cost of sales was \$83,207 and \$419,292 for the three and six months ended September 30, 2019 (September 30, 2018 – \$384,073 and \$637,236). Gross margin increased to 70.5% and 60.9% for the three and six months ended September 30, 2019 (September 30, 2018 – 29.8% and 39.2%) due to economies of scale deriving from higher volume manufacturing.

Operating Expenses

Total operating expenses for the three and six months ended September 30, 2019 were \$3,405,365 and \$6,028,354, compared to \$2,563,120 and \$5,446,061 for the three and six months ended September 30, 2018, as further described below.

For the three and six months ended September 30, 2019, the Company incurred \$584,775 and \$1,168,507 in sales and marketing expenses, compared to \$427,235 and \$969,984 for the three and six months ended September 30, 2018. The increase in these expenses is mainly due to the expansion of the commercial team in fiscal 2020.

For the three and six months ended September 30, 2019, the Company incurred research and development expenses of \$886,060 and \$1,702,583 (September 30, 2018 – \$679,049 and \$1,355,792). The increase in research and development expenses relates primarily to the additional hires to strengthen the development team to support our new development projects as well as material costs related to the projects being worked on.

The Company incurred general and administrative expenses of \$1,199,938 and \$2,041,631 for the three and six months ended September 30, 2019, compared to \$931,477 and \$1,910,956 for the three and six months ended September 30, 2018. The increase in general and administrative expenses in fiscal 2020 over fiscal 2019 resulted from higher consulting, audit, legal and other public and IR related costs.

Stock compensation expense was \$638,219 and \$925,976 for the three and six months ended September 30, 2019, compared to \$439,328 and \$1,034,740 for the three and six months ended September 30, 2018, due to increased option grants in the quarter ended September 30, 2019 compared to the quarter ended September 30, 2018.

Amortization of technology and other assets allocated from the purchase of IMT was \$69,314 and \$138,638 for the three and six months ended September 30, 2019 (September 30, 2018 – \$69,315 and \$140,368). The amortization has decreased as certain assets acquired have been fully amortized. Assets acquired were workforce and non-compete agreements which are now fully amortized. Customer relationships are amortized over 10 years, patents and exclusive license agreements over their lifetime and trademarks are indefinite and therefore are not amortized.

Depreciation amounted to \$27,059 and \$51,029 for the three and six months ended September 30, 2019 (September 30, 2018 – \$16,626 and \$34,221).

Other Expenses

For the three and six months ended September 30, 2019, the Company recorded \$Nil as accretion expense compared to \$1,970,167 and \$2,104,418 for the three and six months ended September 30, 2018 due to the amortization of the fair value as well as the anti-dilution feature recorded in connection with convertible debt financing. Also connected to this transaction were fair value adjustments for the three and six months ended September 30, 2019 were \$Nil (September 30, 2018 – \$(382,010) and \$(337,923)).

For the three and six months ended September 30, 2019, we had a gain of \$Nil on the mark to market reevaluation of the shares to be issued. As of September 30, 2018, \$2,048,697 was recorded as mark to market reevaluation for the six months ended September 30, 2018 due of shares to be issued due to not having enough authorized shares to issue the shares of common stock upon conversion of our convertible promissory notes on March 31, 2018.

For the three and six months ended September 30, 2019, we incurred other expense of \$170,739 and \$185,035 (September 30, 2018 – \$22,712 and \$60,132). The increase in other expenses relates to higher interest expense in connection with indebtedness in the period ended September 30, 2019 compared to the period ended September 30, 2018.

For the three and six months ended September 30, 2019, we incurred a foreign exchange gain (loss) of \$5,064 and \$(57,283) (September 30, 2018 – (\$27,872) and (\$69,006)). On April 1, 2015, our subsidiaries changed their functional currency from the Canadian Dollar to the U.S. Dollar. This reflects the fact that the majority of the Company's business is influenced by an economic environment denominated in U.S. currency as well as that the Company anticipates revenues to be earned in U.S. dollars.

Comprehensive (Loss)

Comprehensive loss for the three and six months ended September 30, 2019 was \$(3,382,684) and \$(5,503,328) resulting in loss per share of \$(0.87) and \$(1.42), and for the three and six months ended September 30, 2018, after retroactive adoption of ASU 2017-11 noted above, comprehensive loss was \$(3,983,105) and \$(4,743,803), resulting in loss per share of \$(1.62) and \$(2.02).

Liquidity and Capital Resources

We have funded operations through the issuance of capital stock, loans, grants and investment tax credits received from the Government of Canada. The Company raised in its 2015 private offering net proceeds of \$11,341,397. Since 2015, the Company also obtained funds through additional government tax credits, incurring new convertible indebtedness totaling \$18,469,681 that has since been converted into equity, a short-term loan of \$400,000, that was repaid and raising \$1,125,038 in June 2017 from its warrant solicitation. At September 30, 2019, the Company had cash and cash equivalents of \$4,674,868. Between June 2019 and September 2019, the Company raised funds through the sale of convertible promissory notes totaling \$9 million in principal, which principal and accrued interest converted into 1,268,191 of the Company's common shares at an average price of \$7.21.

Based on our current burn rate, we expect to need to raise additional capital in the short term to fund operations and meet expected future liquidity requirements, as well as to satisfy our planned liabilities, or we will be required to curtail or terminate some or all of our product lines or our operations. We are continuously in discussions to raise additional capital, which may include or be a combination of convertible loans and equity which, if successful, will enable us to continue operations based on our current burn rate, for at least the next 12 months; however, we cannot give any assurance at this time that we will successfully raise all or some of such capital or any other capital. We do not have an established source of funds sufficient to cover operating costs after January 15, 2020 at this time and accordingly there can be no assurance that our recently launched \$3,000,000 (or up to \$7,000,000 in the discretion of the Company) convertible note financing round will be successful or other necessary debt or equity financing will be available or will be available on terms acceptable to us, in which case we may not be able to meet our obligations or fully implement our business plan, if at all. These conditions raise substantial doubt about the Company's ability to continue as a going concern. The accompanying condensed consolidated interim financial statements do not include any adjustments to reflect the possible future effects on recoverability and reclassification of assets or the amounts and classification of liabilities that may result from the outcome of this uncertainty.

Additionally, we will need additional funds to respond to business opportunities including potential acquisitions of complementary technologies, protect our intellectual property, develop new lines of business and enhance our operating infrastructure. While we may need to seek additional funding for any such purposes, we may not be able to obtain financing on acceptable terms, or at all. In addition, the terms of our financings may be dilutive to, or otherwise adversely affect, holders of our common stock. We will also seek additional funds through arrangements with collaborators or other third parties. We may not be able to negotiate any such arrangements on acceptable terms, if at all. If we are unable to obtain additional funding on a timely basis, we may be required to curtail or terminate some or all of our product lines or our operations.

Net Cash Used in Operating Activities

During the six months ended September 30, 2019, we used cash in operating activities of \$(4,750,770). The similar use of cash in the six months ended September 30, 2018, was a use of \$(4,811,572) for the six months ended September 30, 2018.

Net Cash Used in Investing Activities

During the six months ended September 30, 2019, net cash used in investing activities was \$(91,141), compared to \$(13,640) for the six months ended September 30, 2018. Net cash used in investing activities in the six months ended September 30, 2019 and 2018 was used for the acquisition of equipment related to the Company's purchase of additional computer equipment, equipment to help with the development of our technology and demo units to assist in the sales process.

Net Cash Provided by Financing Activities

Net cash provided by financing activities was \$9,070,000 for the six months ended September 30, 2019 compared to \$4,623,658 for the six months ended September 30, 2018. The increase in the six months ended September 30, 2019 is due to more capital raised in the fiscal 2020 period than the fiscal 2019 period.

Newly Adopted and Recently Issued Accounting Pronouncements

Newly Adopted

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-09, Revenue from Contracts with Customers (Topic 606). The updated standard will replace most existing revenue recognition guidance in U.S. GAAP. The new standard introduces a five-step process to be followed in determining the amount and timing of revenue recognition. It also provides guidance on accounting for costs incurred to obtain or fulfill contracts with customers and establishes disclosure requirements which are more extensive than those required under existing U.S. GAAP. The FASB has issued numerous amendments to ASU 2014-09 from August 2015 through January 2018, which provide supplemental and clarifying guidance, as well as amend the effective date of the new standard. ASU 2014-09, as amended, is effective for the Company in the interim period ended June 30, 2018. The standard permits the use of either the retrospective or modified retrospective (cumulative effect) transition method. The Company adopted the new standard using the modified retrospective transition method. The Company has adopted ASU-2014-1 for the fiscal year ended March 31, 2019 and it did not have a material effect on the consolidated balance sheet and the consolidated results of operations.

In November 2015, the FASB issued ASU No. 2015-17, "Balance Sheet Classification of Deferred Taxes," which require that deferred tax liabilities and assets be classified on our Consolidated Balance Sheets as noncurrent based on an analysis of each taxpaying component within a jurisdiction. ASU No. 2015-17 is effective for the fiscal year commencing after December 15, 2017. The Company has adopted ASU-2015-17 for the fiscal year ended March 31, 2019 and it did not have a material effect on the consolidated balance sheet or the consolidated results of operations.

In January 2016, the FASB issued ASU No. 2016-01 Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities. The updates make several modifications to Subtopic 825-10, including the elimination of the available-for-sale classification of equity investments, and it requires equity investments with readily determinable fair values to be measured at fair value with changes in fair value recognized in operations. The update is effective for fiscal years beginning after December 2017. The Company has adopted ASU 2016-01 for the year ended March 31, 2019 and it did not have a material effect on the consolidated balance sheet and the consolidated results of operations.

In February 2016, the FASB issued ASU 2016-02, Leases. This update requires organizations that lease assets to recognize on the balance sheet the assets and liabilities for the rights and obligations created by those leases. The new guidance will also require additional disclosure about the amount, timing and uncertainty of cash flows arising from leases. The provisions of this update are effective for quarterly and interim periods beginning after December 15, 2018. The Company adopted ASU 2016-02 and it did not have a material effect on the consolidated balance sheet and the consolidated results of operations.

In August 2016, the FASB issued ASU 2016-15, "Statement of Cash Flows: Classification of Certain Cash Receipts and Cash Payments". This ASU provides eight targeted changes to how cash receipts and cash payments are presented and classified in the statement of cash flows. ASU 2016-15 is effective for the fiscal year commencing after December 15, 2017. The Company has adopted ASU 2016-15 for the fiscal year ended March 31, 2019 and it did not have material effect on the consolidated balance sheet or on the consolidated statement of cash flows.

In May 2017, the FASB issued ASU No. 2017-09, Compensation - Stock Compensation (Topic 718): Scope of Modification Accounting (ASU 2017-09). The FASB issued the update to provide clarity and reduce the cost and complexity when applying the guidance in Topic 718. The amendments in this update provide guidance about which changes to the terms or conditions of a share-based payment award require an entity to apply modification accounting in Topic 718. The Company adopted ASU 2017-09 during the year ended March 31, 2019 and it did not have a material effect on the consolidated balance sheet and the consolidated results of operations.

Recently Issued

In January 2017, the FASB issued ASU 2017-01, “Business Combinations: Clarifying the definition of a Business” which amends the current definition of a business. Under ASU 2017-01, to be considered a business, an acquisition would have to include an input and a substantive process that together significantly contributes to the ability to create outputs. ASU 2017-01 further states that when substantially all of the fair value of gross assets acquired is concentrated in a single asset (or a group of similar assets), the assets acquired would not represent a business.

The new guidance also narrows the definition of the term “outputs” to be consistent with how it is described in Topic 606, Revenue from Contracts with Customers. The changes to the definition of a business will likely result in more acquisitions being accounted for as asset acquisitions. ASU 2017- 01 is effective for acquisitions commencing on or after September 30, 2019, with early adoption permitted. Adoption of this guidance will be applied prospectively on or after the effective date and the Company does not expect this policy will have a material effect on the consolidated financial position or consolidated statement of cash flows.

In January 2017, the FASB issued ASU 2017-04, “Intangibles – Goodwill and Other” ASU 2017-04 simplifies the accounting for goodwill impairment by eliminating Step 2 of the current goodwill impairment test, which required a hypothetical purchase price allocation. Goodwill impairment will now be the amount by which the reporting unit’s carrying value exceeds its fair value, limited to the carrying value of the goodwill. ASU 2017-04 is effective for financial statements issued for fiscal years, and interim periods beginning after December 15, 2019. The Company is still assessing the impact that the adoption of ASU 2017-04 will have on the consolidated statement of financial position and consolidated statement of operations.

In June 2016, the FASB issued ASU 2016-13 Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses of Financial Instruments, which introduces an expected credit loss methodology for the impairment of financial assets measured at amortized cost basis. The methodology replaces the probable, incurred loss model for those assets. The update is effective for fiscal years beginning after December 15, 2019. The Company is still assessing the impact that the adoption of ASU 2016-13 will have on the consolidated statement of financial position and consolidated statement of operations.

Management does not believe that any other recently issued, but not yet effective accounting pronouncements, if adopted, would have a material effect on the accompanying condensed consolidated interim financial statements.

Off-Balance Sheet Arrangements

We had no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Not applicable for smaller reporting companies.

Item 4. Controls and Procedures.

Disclosure Controls and Procedures

We maintain “disclosure controls and procedures” as such term is defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act that are designed to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in SEC rules and forms, and such information is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure.

As of the end of the period covered by this Quarterly Report, we carried out an evaluation, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Exchange Act Rules 13a-15(b) and 15d-15(b). Based upon this evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures as of the end of the period covered by this Quarterly Report were effective.

Changes in Internal Control over Financial Reporting

During the three months ended September 30, 2019, there were no changes in our internal controls over financial reporting (as defined in Rule 13a- 15(f) and 15d-15(f) under the Exchange Act) that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part II- OTHER INFORMATION

Item 1. Legal Proceedings

None

Item 1A. Risk Factors

Not applicable for smaller reporting companies

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the six months ended September 30, 2019, an aggregate of 40,560 shares of our common stock were issued upon the exchange and redemption of outstanding Exchangeable Shares for shares of common stock. The securities were issued in private transactions in reliance upon exemptions from registration pursuant to Section 4(a)(2) of the Securities Act, as transactions not involving any public offering.

All other unregistered issuances of equity securities during the period covered by this quarterly report have been previously disclosed on our Current Reports on Form 8-K.

Item 3. Defaults Upon Senior Securities.

None

Item 4. Mine Safety Disclosures

Not applicable

Item 5. Other Information

None

(b) Exhibits

The following exhibits, which are numbered in accordance with Item 601 of Regulation S-K, are filed herewith or, as noted, incorporated by reference herein.

Exhibit Number	Description of Exhibits
10.1	Form of Equity Compensation Agreement – Non-Management Director
10.2	Equity Compensation Agreement, dated October 15, 2019, with Eric Dusseux
